(54) PACKAGING FILM

(57)Abstract:

PURPOSE: To provide the title film which is good in non-fogging even when used for packaging a moist article and which has hence good display effect, is excellent in transparency, pliability, and heat-sealability, and is useful as a PVC substitute especially suitable for food packaging.

CONSTITUTION: The film is formed from a composition comprising 100 pts.wt. ethylene/(meth)acrylic acid copolymer having a (meth)acrylic acid content of 2-20wt.% or lowly ionized ionomer obtained therefrom and 1-10 pts.wt. mixture comprising a polyglycerol/fatty acid ester and a glycerol/fatty acid ester and/or a poly(ethylene glycol)/fatty acid ester in a weight ratio of 1/9 to 9/1.

LEGAL STATUS

[Date of request for examination] 14.09.1999

[Date of sending the examiner's decision of rejection] 01.10.2002

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
